

SOFTWARE ENGINEER

GULBALA SALAMOV

I am a Java enthusiast software developer. I focus on back-end technologies and am passionate about using modern Java 11+ and Spring Boot. I follow best practices and aim to improve myself at all time. I am friendly, positive minded and flexible individual enjoying working in both my own initiative and team.

MAJOR ACHIEVEMENTS

- Certified by the Association of Payment and Money Institutions of Turkey as one of most successful graduate in Java Spring Fintech Bootcamp (2022)
- Worked on €2.5M project funded by the European Research Council (ERC) as Developer & Researcher (2021)
- Published Android Mobile Programming book in Java, recommended textbook in Turkish universities in 2017
