MAIN SKILLSET & ABILITIES

- Java 8,11
- Android
- Spring, Spring Boot
- JUnit5, Integration Test
- JSF, PrimeFace
- SQL, PostgreSQL,
- Oracle WebLogic Server
- HTML / CSS
- Version CS (Git, GitHub)
- OutSystems (NoCode -LowCode)
- OAS & Swagger
- Additional Tools (Jira, Confluence, Slack, Teams)
- Research & Development
- Technical Writing

EDUCATION

SWANSEA UNIVERSITY, U.K.
MSc, Computer Science, 2016

MIDDLE EAST TECHNICAL UNIVERSITY, TURKEY
BSc, Computer Education & Instructional Technology, 2014

LANGUAGE CERTIFICATIONS

- TURKISH - NATIVE
- AZERBAIJAN - NATIVE
- ENGLISH - ADVANCED (IELTS: 6.5)
- RUSSIAN - ELEMENTARY

CAREER SUMMARY

JAVA DEVELOPER
Turkish Airlines Technology | Jan 2023 - | TURKEY

- Working in the design, development and integration of the software projects using Java and Spring for backend and JSF and PrimeFace for frontend applications
- Revise and maintain the applications in compliance with the new needs arising within the software life cycle

OUTSYSTEMS DEVELOPER & TECHNICAL WRITER
eSystems Nordic | Feb 2022 - July 2022 | FINLAND

- Building applications in OutSystems, LowCode - NoCode Development Environment
- Creating high-quality documentation

ANDROID DEVELOPER & RESEARCHER
University College London | Apr 2019 - Jun 2020 | U.K.

- Maintaining data collection app using Java and Android
- Designing and building new mobile apps
- Preparing technical documentations
- Contributing to academic research and workshops

RESEARCHER (INTERN)
State University of New York | Jun 2017 - SEP 2017 U.S.A

- Building interactive prototypes for university mobile app
- Collaborating closely with university IT department to conduct user research

BUSINESS ANALYST
SIP | Sep 2015 - SEP 2016 | AZERBAIJAN

- Communicating with clients and verifying their needs
- Simplifying complex technical concepts with high-quality prototypes, use cases and diagrams
- Building e-commerce websites using WordPress and similar CMS and LMS softwares

ICT TEACHER
Ari Private Schools | Sep 2013 - SEP 2014 | TURKEY

- Lectured school students about programming languages and built simple apps using visual coding tools
- Guided students to build algorithms for real life problems by playing logic based games
